FLUID EXTRACT OF MALT.

THE use of that extremely valuable Food and Remedy EXTRACT OF MALT has been retarded by its usually viscid condition; to obviate this objection we have had prepared a FLUID EXTRACT OF MALT as easily poured out of the bottle and measured into doses as any other Fluid.

It contains as much of the DIASTASE as any viscid EXTRACT OF MALT and is therefore fully as active in tissue forming and digestive power.

Two tablespoonfuls of our FLUID EXTRACT OF MALT contain more nutritive and digestive value than a pint of the strongest Ale or Stout.

In 10 bottles 75 cents. Per dozen \$8.00.

MINERS' STRIKE IN GERMANY.

LONDON, January 18th.
There is great uneasiness felt at Berlin owing to a general strike among the miners in Westphalia; the Socialists are active and a repetition of the events of 1892 is feared.

THE WEATHER IN EUROPE.

Rain and thaw have broken up the intense frosts which have lasted for the past fortnight in Europe.

THE HOME RULE BILL.

The Daily News notifies that Mr. Gladstone's Home Rule Bill will include a clause limiting the number of Irish members in the House of Commons to one third of the present number.

RUSSIA AND THE AMER.

The Standard says that Russian emissaries have arrived at Cabel in order to persuade the Amer that the intention of Russia regarding the Panama is not known to Great Britain.

THE PANAMA CANAL SCANDALS.

There is another sensation in Paris in consequence of M. Balhaut, Minister of Public Works, when the Panama Canal lottery tickets were issued, being implicated. The scandals allege that Balhaut, and Blondin, his Secretary, received a million francs on this account.

LOCAL AND GENERAL.

It is stated that the Queen Regent of Spain smokes at least twelve cigarettes a day.

At the Magistracy to-day the great \$77,000 embezzlement case (Chinese) was further adjourned a week for more evidence.

(Miss Gay—You're flirting with a new fellow.
Miss Giddy—Yes! How did you know it?
Miss Gay—Different style of rash on your cheek to-day.

The British steamer *Exe*, the first foreign vessel to enter Hogo since it has been declared an open port, commenced to load a cargo of rice there on the 4th inst.

The thermometer is going up a little, and so is the Police Court list—20 cases to-day, against 16 on Monday and to yesterday; daily average the year round, about 30.

THERE was a heavy snow-storm in Amoy on the morning of the 6th inst which lasted for three hours from 5.40 until 8.30. No such phenomenon had previously been recorded in Amoy, at all events during the present generation.

Jinx—The Editor of the *Shall* is awfully off colour.
Blinx—What's the trouble?
Jinx—Doctor says he conceived an idea.
Blinx—Ten-to-one it's still-born.

HARD times in South Australia:—"Dere air, the reason bill and george as been away from school so much, they have not got Boots to were I must keep bill one to let george were in Boots. And they As got a Bad foot and is not able to com."

The Russian flag ship *Dmitry Donskoi* has been unexpectedly ordered home, and will leave on her place on the China and Japan station will probably be taken by the *Admiral Korniloff*. Our Nagasaki contemporary states it is rumored that two additional cruisers are coming out to join the Russian squadron.

By private advices from Saigon we learn that the Chinese Minister to France was in trouble during his stay at the "Paris of the Far East," having offered (presumably without knowing) counterfeit coin to a carriage driver whom he had employed, and being locked up, but released as soon as he was recognized.

A FIRE broke out last night among some native dwellings close to the Coffee Plantation, Causeway Bay, and several matchboxes were burnt and the inmates thrown on the cold world. Damage not less than \$5. No insurance. The fire brigade did not attend, as there was little fear of the Polo Ground being burnt down.

ACCORDING to a telegram received by the *Osaka Asahi* the Japanese Naval Court of Inquiry into the *Ramona-Chikuma* disaster has found that the captain and officers of the latter vessel were not guilty of carelessness as to the collision, but they will be punished, nevertheless for having lost a war vessel with so many lives.

THE coldest weather ever known in Swatow was experienced on Monday last. Nothing approaching such extreme cold had been felt since foreigners first settled in the place. Yesterday morning everything that was wet had a covering of ice. Times change, and apparently so do the seasons, according to our recent experiences.

At the Magistracy to-day, before Mr. H. Z. Wodehouse, Inspector Bremner had 34 shivering and shivering wretches charged with the awful offence of playing whist, or some such fearful atrocity, not at the Hongkong Club, but at a hotel in Hoang Lane. They were fined \$2 each, and several of them, not being brokers, were able to pay up at once.

In addition to the numbers of deaths, which no doubt must be caused among the most destitute of the Chinese during this time of unprecendented cold, there is no little danger of mortality from efforts to keep up the temperature. Two Chinese were found dead in a small cage boat last night at Kowloon, suffocated by the fumes of a charcoal stove in their cabin.

A SYDNEY police-court maintenance (1911). Lawyer Crick (to complainant wife): "Take my advice and manage your home without your mother." Magistrate Giles: "Go and try and keep your mother out of the house." Complainant (to his band): "If you keep my mother out of the house, you won't keep me in. She's (the only friend I've got in the world." Magistrate: "After that I can make no order." Complainant here fell down in a fit. Defendant walked away unconcerned. Her mother brought her to and took her away. Graphic history picture!

A BOSTON girl is supposed to have written this graphic and illuminating description of football, as seen by feminine eyes:—

First came some men all dressed in blue. Then others came in red. One fellow yelled, the rest all tried to jump upon his head. And then another fellow yelled, and each man, where he stood, just hit and struck, and knocked and kicked. At everyone he could. And then pat fell upon his neck, and all the others ran, and on his prone and prostrate form leaped every blessed man. And then the ambulance drove on, and, loading up with men with twisted necks and broken lungs, went driving off again.

The inquest on the body of Victor Valazis, the aeronaut, was held on the 17th inst, at Saigon and the verdict was to the effect that he died by accident.

Too Negligée for Him—"No, mamma," said the young man slyly, yet firmly, "She may be bright, highly educated and even a good cook. But I cannot bring myself to love a woman who appears on the street—though she is merely going to the grocery store—with only one suspender."

Mrs. Jenks—Mr. Jenks, what have you been teaching the parrot during my absence at Shanghai?

Jenks—Nothing that I am aware of. Why?

Mrs. Jenks—Because when I entered the room, she screamed "hi-ya" and threw up her legs.

Too GRATEFUL—"Don't be too hard on me, Judge," pleaded the prisoner. "I voted for you. The gentlemen on the Bench smiled. 'You did, eh?' he said. 'Well, in view of that, I guess I can't do less than give you a fine to go and drink to my health.' 'Thank you, Judge! Thank you!' 'Next spring, when you get out, Ninety days.'"

A SMALL fire broke out a little before half-past five this morning in a Chinese chandler's shop. No. 2 Square Street, corner of Ladder Street. As usual, the firemen turned out of their beds and were on the spot in a very few minutes, preventing the spread of the conflagration. The building, which formed the original seat of the fire could not be saved, and was hardly worth saving anyhow. Damage nominal, not insured.

WHICH is the country, asks a home paper, that produces the largest quantity of gold? "Many people, probably, would say Australia, but it is not so. The yearly production of gold in the United States, according to a recent calculation, is valued at nearly seven millions sterling. Australia, which occupies the second place, only produces a little over five millions worth; but it is run very close nowadays by Russia, with an output valued at nearly four millions three quarters. Next come the South African Republic (2,750,000), the English possessions in Asia and Africa (2,020,000), China (1,080,000), and New Zealand (750,000). Among other countries where a small quantity of gold is found, are French Guiana, Germany, Hungary, Chili, Mexico, Venezuela, British Guiana, Canada. Each of them produces from 200,000 to 300,000 worth. For silver production the United States again head the list, closely followed in order of importance by Mexico, then at a long interval comes Bolivia, and afterwards Germany, China, after a long interval, come Chili, France, Central America, British Guiana, and China.

At the meeting of the Sanitary Board on Thursday, January 13th, at 4.15 p.m., the order of the day will be—Dr. Cantile will move,—"That a Committee consisting of the Captain Superintendent of Police, the Colonial Surgeon, and the Honourable Dr. Ho Kai, be appointed to consider what steps, if any, should be taken to prevent the spread of rabies in the Colony and that the Committee be requested to report to the Board as early as date as possible.
